

ROOFCRYL

- 10 Year Guarantee.
- UV-resistant for long lasting protection.
- Easy application by brush, roller or airless spray.
- Can be used on prepared cladding, galvanised garage doors, galvanised gutters and down pipes.
- Has an outstanding adhesion capacity in the case of prepared galvanized surfaces, nutec, clay and cement roof tiles.
- Dries rapidly and is hard and dry within 4 hours; two (2) coats can therefore be applied within a day.
- It is coloured with colour-fast pigments and will therefore not fade in the sun or be affected by alkaline salts.
- Impa Moultech™ antibacterial, fungal and algae protection.
- Low VOC.
